

The Catholic Women's League of Canada
London Diocesan Council

Environment Care

To: All Parish Presidents, Legislation Chairpersons
CC: London Diocesan Council
From: Helga Stuermer: London Diocesan Legislation Chairpersons;
Date September, 2018

Directive # 4

God help us listen to each other. We may be hurt and angry, but we know that with your help we can get through anything, because you love us.

Another beautiful day, we know soon the fall season will be upon us, so we try to really enjoy the sun as much as possible.

Palliative Care: The hospices were organized so that people who approached the end of life, could do so and die with dignity. They have the care so there will be minimal pain and suffering. Their passing will not be hastened, nor prolonged - until their natural live is ending. They feel trust and care.

2018.03 Legislate Designation of Hospice/Palliative Care Services in Facilities to **Exclude Medical Assistance in dying.**

- We need to act and encourage members to write to the Prime Minister, ministers of justice and health, and their members of parliament urging the federal government to legislate designation or hospice/palliative care free from medical assistance in dying.
- Educate members on keeping hospice and palliative care free from euthanasia.
- **Where hospices are performing medical assistance in dying, withdraw all funding. Write to the board of directors of hospices stating the reason for the withdrawal of donations.**

Monitor the federal government's response to the request containing in the resolution. House of Commons will convene on September 17, 2018; Info can be found at www.parl.gc.ca/housechamberbusiness/chambercalendar.

Attached is Resolution 2018.03, Brief, Works Cited and Action Plan.

The provincial delegation hopes to meet with premier Ford this Fall (a request was made) and we will be highlighting the concerns of members – in letters and petitions send, phone calls and visits to MPPs, and our resolutions, We cannot do everything, but we are expected to do something. Let's continue to keep our eyes and ears open: As per Karen Provincial Legislation Person.

Attached is the Brief on the Legislation Designation: please read very carefully: consenting to assisted dying is committing suicide, and for the Dr's murder. Plain and simple: **Until natural death, To give comfort, and not to**

hasten, nor prolong the dying: This is the plan for hospices and palliative care units.

C-14 is an act to amend the criminal code, and to make related amendments to other act from do no harm legalizing medical assistance in dying.

This attachment will be included in the email:

Grandparents right to see their grandchildren:

There are 120 000 Grandparents alone in Ontario that are alienated from their grandchildren. There are support groups; called: Support Group: Alienated Grandparents Anonymous: There are many concerns and heartbreaking stories from Grandparents who are denied the right to see their own grandchildren. May it be through divorce or other circumstances? This group is working towards having the laws changed so their rights to see them cannot be denied. There should be legislation to that effect.

Please remember the Scavenger Hunt: the Provincial legislation team reminding you to participate in the Scavenger Hunt. I wrote about it in my May directive. If you need another copy please find it below.

This was submitted by Colleen

Please read all the information carefully. C-14 is very important, and please remember the C-404 Bill; From my July directive #3. This one is very important:

.....
Lord god, people often ask, "WHO AM I?" because they really don't know; we can start with this. We are your children, and you love us. Thanks, God!

*

May God bless you all.

2018. 03 Legislate Designation of Hospice/Palliative Care Services in Facilities to Exclude Medical Assistance in Dying

Whereas, Bill C-14 An Act to amend the Criminal Code and to make related amendments to other Acts (medical assistance in dying) changed the provision of health care from “do no harm” to legalizing medical assistance in dying; and

Whereas, medical assistance in dying is being imposed on some hospice/palliative care facilities contrary to their philosophy and purpose which is to provide comfort care during a person’s final days; and

Whereas, Bill C-277 Framework on Palliative Care in Canada Act was legislated by the federal government; and

Whereas, hospice/palliative care as defined by the World Health Organization neither hastens nor postpones death, making it incompatible with medical assistance in dying; therefore, be it

Resolved, that national council of The Catholic Women’s League of Canada in 98th annual National convention assembled urge the federal government to legislate the designation of hospice/palliative care services in facilities to exclude medical assistance in dying; and, be it further

Resolved, that this resolution be forwarded through the national executive to the provincial councils, encouraging them to become aware of this issue as it pertains to their province/territory, and to act on it, as deemed

BRIEF: Legislate Designation of Hospice/Palliative Care, Free From Medical Assistance in Dying

Bill C-14 An Act to amend the Criminal Code and to make related amendments to other Acts (medical assistance in dying) changed the dynamic of health care from “do no harm” to legalizing medical assistance in dying. The Supreme Court of Canada in *Carter v. Canada* stated that “Complex regulatory regimes are better created by parliament than by the courts” (McLachlin, et al). Also, Bill C-277 An Act providing for the development of a framework on palliative care in Canada was passed into law on December 12, 2017 (Canada), the federal government could pass legislation on the designation of hospice/palliative care to be free from medical assistance in dying.

BC Fraser Health Authority is mandating that medical assistance in dying be available in hospice/palliative care contrary to the philosophy, policy and purpose of hospice/palliative care. “All health authorities in BC, including Fraser Health, support the provision of medical assistance in dying in all settings... We will be proceeding with the final phase of implementation in hospice and palliative care settings” (Sinclair). Bill C-14 section 241.2(9) states, “For greater certainty, nothing in this section compels an individual to provide or assist in providing medical assistance in dying.”

Hospice and palliative care are incompatible with medical assistance in dying. The definition according to the World Health Organization and the International Association of Hospice and Palliative Care state that hospice and palliative care:

- Provides relief from pain and other distressing symptoms.
- Affirms life and regards dying as a normal process.
- Neither hastens nor postpones death...

Hospice/palliative care has always been a safe environment providing comfort care, addressing all aspects of patient care to live life well until natural death. In his address to a conference hosted by Anscombe Bioethics Centre in the United Kingdom, a doctor from Belgium cited “a palliative care centre where the director became known for being very welcoming to euthanasia requests. The centre began to get referrals simply for euthanasia and this changed the pattern of practice and the character of the centre such that a number of staff subsequently left”(Gately and Jones).

“There are also implications for palliative care: Those seeking euthanasia may be referred first to a palliative care centre for assessment, with agreement contingent upon the outcome. This has led to confusion among some patients as to the nature of palliative care” (ibid).

“Some patients are afraid to go to their doctor or hospital. Some carry cards requesting they not be euthanized. There are concerns that doctors will too quickly accede to a request for euthanasia and fail to facilitate the exploration of alternatives” (ibid).

The Catholic Women’s League of Canada urges the federal government to legislate a designation of hospice/palliative care, free from medical assistance in dying.

Action Plan

1. Write to the prime minister, ministers of justice and health, and your member of parliament, urging the federal government to legislate designation of hospice/palliative care free from medical assistance in dying.
2. Educate members on keeping hospice and palliative care free from medical assistance in dying.
3. Where hospices are performing medical assistance in dying, withdraw all funding. Write to the board of directors of hospices stating the reason for the withdrawal of donations.
4. Monitor the federal government’s response to the request contained in the resolution.
